This is the 3rd page. I tried to do a screen shot but it wouldn't paste into your email. So I copied the text instead. I don't know why it's like that.

Douthit C Federal 100
API: 30-045-30184
TA Mechanical Integrity Test
9-1-20

Proposed Procedure

1. Hold pre-job safety meeting. Comply with all NMOCD, BLM, and HEC safety and environmental regulations.
2. Check casing, tubing and bradenhead pressures and record all well pressures.
3. MIRU pump truck. Load casing. PT csg to 500 psi. If PT passes, notify agencies for witness MIT to TA. If fails, notify agencies within 5 days and proceed.
4. RDMO pump truck.

Monica,

The third page is the procedure. I've attached the NOI. Let me know if you still have trouble reading it.

Thanks,
Cheryl

Cheryl

The third page is unreadable - can you explain what that says - something to do with the font.

Monica

Hello, Brandon.

The above well's MIT is due and we are needing OCD approval to proceed as soon as possible. The attached NOI was uploaded to e-Docs and I have been checking for the approval scan and have not seen it come through.

Please let us know if additional information is needed.

Thanks,

Cheryl Weston
