	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Due to a fish in the hole Energen Resources will sidetrack the Jicarilla West #8M. The top of the fish is at 6431' MD and 300 linear feet of cement will be placed as a balanced plug on top of the fish. 129 cuft of 16.5 ppg cement class "G" with 2% KCL (1.06 cuft/sx) will be pumped. After waiting 24 hours the plug will be time drilled off of. The well will remain vertical and inside the legal window.

Verbal approval given by Wayne Townsend - BLM and Charlie Perrin - NMOCD on 9/26/2011

14 I hereby certify that the foregoing is true and correct
