NATURE OF RELEASE

Type of Release - Produced Water and Lube Oil	Volume of Release - 3 BBL PW, 2 BBL lube oil	Volume Recovered - 1.5 BBL lube oil
Source of Release: Tank overflow	Date and Hour of Occurrence unknown	Date and Hour of Discovery 5/22/08 - 10:30 a.m.
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? OCD - Brandon Powell via email BLM - Kevin Schneider via email	RCVD JUN 5 '08 OIL CONS. DIV. DIST. 3
By Whom? Kristina Kovach	Date and Hour - 6/4/08 - 4:00 p.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A ConocoPhillips employee discovered a produced water and lube oil spill at the San Juan 30-5 #249 on the morning of 5/22/08 due to a tank overflow which resulted from increased production. The total spill volume was approximately 5 BBL, including 3 BBL of produced water and 2 BBL of lube oil. The tank was equipped with a high level shut down which malfunctioned. Upon discovery, the well was shut in and a water truck was called to pull remaining liquids from the tank and berm.**

Describe Area Affected and Cleanup Action Taken.* **All of the spilled fluids were contained within the berm, and 1.5 BBL of lube oil was recovered. An environmental crew will steam clean the gravel inside the berm and rake in fresh soil. COPC will test the high level shut down. To prevent reoccurrence, tank levels will continue to be monitored.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
