**NATURE OF RELEASE**

of Release - **Produced Water**  
Source of Release: **Tank leak**

Volume of Release - **150 BBL**  
Date and Hour of Occurrence

Volume Recovered - **5 BBL**  
Date and Hour of Discovery  
**3/7/08 - 11:00 a.m.**

Was Immediate Notice Given?

☒ Yes ☐ No ☐ Not Required

If YES, To Whom?

**Forest Service - via phone**  
**OCD - Brandon Powell - via phone & e-mail**  
**BLM - Kevin Schneider - via phone & e-mail**

By Whom? **Gre Wurtz**

Date and Hour - **3/7/08 - 4:00 p.m.**

Was a Watercourse Reached?

☐ Yes ☒ No

If YES, Volume Impacting the Watercourse.

**KOVACH KRISTINA**  
**OIL CONS. DIV.**  
**DIST. 3**

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* **Two ConocoPhillips Company employees discovered a leak in the produced water tank at the San Juan 30-5 #104E on 3/6/08. After gauging the tank, the employees calculated that there were approximately 150 BBL in the tank. The well was shut in, and COP arranged for the tank to be pulled and repaired. On 3/7/08, a COP employee returned to the location to find the produced water tank had only 6" of water inside, but no water truck had visited the location. 5 BBL of produced water were recovered from inside the berm, but there was no evidence of a 145 BBL spill. The tank will be removed once a crew can reach the location. Soil samples have been taken to determine if the 145 BBL went into the ground directly under the tank, with results pending from the lab. The leak was most likely due to corrosion.**

Describe Area Affected and Cleanup Action Taken.\* **At this time, 5 BBL of produced water has been removed from the berm. A water quality analysis of the produced water was performed. Soil samples will determine further remediation. The affected area measures 23'x8'. The tank will be replaced.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
