Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

RCVD OCT 25 '10

If a Watercourse was Impacted, Describe Fully *

OIL CONS. DIV.
DIST. 3

Describe Cause of Problem and Remedial Action Taken.*

A leaking PRV allowed gas to escape to the atmosphere. The compressor was blown down and the package shut down until the cause can be determined and corrected.

Describe Area Affected and Cleanup Action Taken *

The gas released dissipated into the atmosphere so no clean-up action was possible.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
