NATURE OF RELEASE

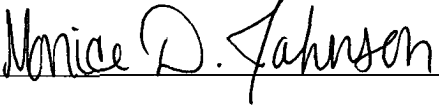

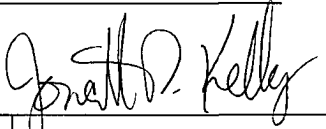

Type of Release - Condensate (historic)	Volume of Release - Historic	Volume Recovered - Historic
Source of Release: Historic	Date and Hour of Occurrence 2/6/08	Date and Hour of Discovery 2/6/08
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell - OCD - via email	RCVD FEB 15 '08
By Whom? Monica D. Johnson	Date and Hour - 2/6/08 - 1:00 p.m.	OIL CONS. DIV.
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	DIST. 3

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A historic discovery of condensate impacted soils was discovered at the Heaton #7 on 2-6-08 when excavation activities were commenced to reset surface equipment. Test holes were dug on location to determine extent of the historic staining, with a total area approximately 45' x 45' x 4' deep being impacted. Bedrock occurs at 3-5' across the entire location. When the road conditions improve this spring, the soils will be excavated and hauled to Envirotech's commercial landfarm.**

Describe Area Affected and Cleanup Action Taken.* **When the road conditions improve this spring, the soils will be excavated and hauled to Envirotech's commercial landfarm. The surface equipment was reset temporarily and the well put back on line until excavation occurs this spring.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
