OIL CONS. DIV.

DIST. 3

Describe Cause of Problem and Remedial Action Taken.* Produced water tank overran releasing 5 bbls of produced water inside of the lined secondary containment. A water truck was called out and recovered 5 bbls of produced water.

Describe Area Affected and Cleanup Action Taken.*

No produced water was released from the lined secondary containment. Produced water was recovered and properly disposed of. No additional cleanup will be needed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
