13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) received Application for Permit to Drill approval on January 20, 2012 for the Good Times A06-2310 01H oil well.

Encana would like to move the access road approximately 200 feet. The access road crosses two existing pipelines that will require padding at the crossings. After padding is completed, the permitted access road will have a 8-9 percent grade coming into the pad. The proposed access road will come into the pad at a better angle and will have a less than 6 percent grade coming into the pad.
