13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Attached is a drawing for the placement of the cathodic ground, rectifier and cable for the subject well.

Hubbard #1B

Section 22, T32N, R12W, N.M.P.M., San Juan County, NM

Drill ground bed approximately 177' North of #1B wellhead at staked location. Install new rectifier and cables to new ground bed, #1B and #1A wellheads. There is an existing ground bed, if possible tie in with new ground bed at rectifier. Tie in existing UGAC to new rectifier. Meterpole is on the outskirts of the location. The lengths of the new cables are listed below.

#1B Cables:
Negative: 180'
Positive: 15'

#1A Cables:
Negative: 72'

Total Ditch: 267'
