13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Suspect hole in tubing and plan to repair same. If hole is found in casing a squeeze job will be performed. Well will be drilled out after squeeze, tested and resqueezed if needed. If MIT testing is required will advise BLM 48 hours prior to performing test to schedule witness.

If needed, subsequent filing will include information on what was performed with appropriate follow up information and logs.

**Notify NMOC D 24 hrs
prior to beginning
operations**
