setting depth

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

5/22/12 Burlington Resources wishes to deepen the surface casing to allow us to set the intermediate casing +/- 5000'. The new setting depth for the surface casing will be 320'. Our intermediate target and trajectory will be the same so a new directional plan will not be submitted now, but the directional survey conducted after drilling will still be submitted with the completion package paperwork. Verbal approval received from Troy Salyers (BLM) and Brandon Powell (NMOCD) 5/23/12.

BLM'S APPROVAL OR ACCEPTANCE OF THIS ACTION DOES NOT RELIEVE THE LESSEE AND OPERATOR FROM OBTAINING ANY OTHER AUTHORIZATION REQUIRED FOR OPERATIONS ON FEDERAL AND INDIAN LANDS
