BP submitted original C-103 to plug the well on April 20, 2012. Landowner has informed BP he plans to return the well site to agricultural use (alfalfa growing) after the well has been plugged. As a result he wants the P&A marker placed four feet below the ground surface. This C-103 is to request approval for the below grade marker.

The attached photos show the location of the well site in relation to the existing alfalfa field.
