Encana Oil & Gas (USA) Inc. (Encana) received APD approval on March 5, 2012 to construct the Meadows I08-3014 01H well connect. Encana has determined the proposed pipeline tie-in cannot be connected to the Dugan Poles Paradise #91 because the Poles Paradise #91 connects into a poly pipe which cannot accomodate anticipated high BTU gas due to pressure rating limitations.

Encana proposes to construct, operate, and maintain a 0.15 mile, up to 6-inch diameter, buried, steel natural gas pipeline. The proposed pipeline would start at the Meadows I08-3014 01H well pad in the NESE Section 8, T30N, R14W and run 729 feet northeast to a tie-in point with the Enterprise Products Poles Paradise #2 Pipeline located in the NESE Section 8, T30N, R14W. A revised survey plat is attached.

Encana would like to begin construction in June 2012.
