13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection )

This well was continuously plugged as new zones were tested. Placement of all bridge plugs and cement were approved by Val Jameson and Steve Mason of the BLM's Farmington Field Office at the well site. Plugs are described on the attached sheets. The amount of cement, slurry, and depths are being provided contemporaneously herewith on the Well Completion Reports for this well.
