13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

We are intending to repair erosion to location's diversion ditch and berm by cleaning out the silt trap located at the well pad's northeast corner. The existing berm shall be extended over Enterprise pipeline to prevent runoff from entering well pad. Material from the silt trap will be used to repair diversion berm and also fill in around the well head. Bill Liess (BLM) was contacted on 7/31/12 and has given his approval to perform the work.
