13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Shoreline Oil & Gas has preformed testing on the Apache Hills #3. After testing the casing and tubing we have determined there must be a hole in the casing. With this being the case and after looking at the history of production we have decided it would not be feasible to try to repair the casing and bring the well back to production. I have contacted AAA Well Services and am awaiting a quote for the plugging cost and the time schedule. Shoreline will provide subsequent report after receiving all the information from the well service company.
