13 Describe Proposed or Completed Operation Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports must be filed within 30 days following completion of the involved operations If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection )

Attached is a drawing for the placement of the cathodic ground, rectifier and cable for the subject well.

## San Juan 29-7 Unit #82M

Section 4, T29N, R7W, N.M.P.M., Rio Arriba County, NM

Drill ground bed approximately 150' south of San Juan 29-7 Unit #82M well head at staked location. Install 40-16 rectifier at staked location and connect to existing UGAC, across road at location entrance. Install cable to new ground bed and to San Juan 29-7 Unit #82m and 82A wellhead's at lengths below. They should not have any problems with boulders drilling. It should take 20' of casing.

San Juan 29-7 Unit #82M Cables:

Negative: 462'

Positive: 18'

Total Ditch: 324'
