13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The Old Rock Fed. Com. #3 had all of its pumping, storage & separation equipment removed by Merrion Oil & Gas Corp. prior to the acquisition of the well by Resource Development Technology LLC (RDT) in February 2004. RDT has used a flexible steel hose to sell gas from this well from time-to-time. RDT is convinced that the well, with proper equipment, can resume selling oil as well as natural gas in paying quantities. RDT will now proceed to re-equip this well with a downhole pump, rods, a pumping unit with a natural gas motor, a 3-phase separator, & a tank battery as soon as a rig can be mobilized to equip the well & the proper equipment can be purchased & installed. This well will then be returned to complete service ASAP.
