On 5-30-05 a split in the surface casing was detected. After digging around the surface casing at ground level a split was found from 18' and down. A 5' diameter by 20' long culvert was placed over the existing surface casing and cement between culvert and casing. 7" 23# with turned down collars will be run and cemented to surface inside the 8 5/8" casing. The existing surface casing is set at +/- 420', the 7" casing will be set at +/- 500'. The hole will be completed with a 6 1/4" bit with 4 1/2" casing. The above plan was approved verbally by Stephen Mason on June 1, 2005 at 11:00 AM.
