13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Operator Lance Oil & Gas Company Inc. respectfully requests the following changes in the Application to Drill on this well.

In the APD approved July 16, 2004, under Item 4, "Casing & Cement", the hole size is indicated as 8-3/4", 7" OD Surface Casing, and 6-1/4" hole, 4-1/2" OD Production Casing. However, to conform to Lance Oil & Gas Company, Inc.'s drilling procedures, operator wishes to drill a 12-1/4" surface casing hole to set 8-5/8" 24# J-55 surface casing, and drill a 7-7/8" hole to set 5-1/2" 15.5# production casing. The cementing volume will be increased accordingly. "Waiting on Cement" time will be as per cementing company recommendation, but will in no event be less than 6 hours.

Therefore, Operator, Lance Oil & Gas Company, Inc. respectfully requests that the APD be amended to drill a 12-1/4" surface hole, set 8-5/8" 24# J-55 surface casing, drill a 7-7/8" production casing hole and set 5-1/2" 15.5# production casing and increase the cement volume accordingly.

No other changes to the original APD are requested at this time.

14. I hereby certify that the foregoing is true and correct
