**NATURE OF RELEASE**

Type of Release Oil Release	Volume of Release 265 BBL	Volume Recovered 150 BBL
Source of Release Frozen oil valve on 400 bbl storage tank	Date and Hour of Occurrence 1-2-2013, Hr Unknown	Date and Hour of Discovery 16:00 HR 1-2-2013
Was Immediate Notice Given? Required <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not	If YES, To Whom? Brandon Powell,  RCVD JAN 10 '13 OIL CONSV. DIV. DIST. 3	
By Whom? Lee Gardner - Sr. HSE Specialist	Date and Hour 11:00 HR 1-3-2013	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\* Not Applicable

Describe Cause of Problem and Remedial Action Taken.\* Valve on oil storage tank froze and broke

Describe Area Affected and Cleanup Action Taken.\* Approximately 265 BBL of oil were released into the spill containment area. The liquid flowed through animal borrows and breached the containment wall. Due to the subfreezing temperatures, the oil traveled approximately 20 yards off site before gelling. The gelled oil outside of the containment wall was collected for disposal. Approximately 150 BBL of gelled oil was collected from inside of the containment wall by heated with hot water. The extent of the oil penetration into the soil inside the containment wall is not known. Enervest Operating has requested permission from the Jicarilla Tribe to suspend further clean up activities until warmer weather.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
