Subject Pollock GC D #1 P&A verbal approval

Brandon with NMOCD gave us verbal approval @ 11:10 am on 1/23/13 to change the P&A procedure for the top plug since we still have a some BH wtr flow after setting the 4-1/2" surf shoe plug. We are going to cut the 8-5/8" csg at about 210' & pull the 8-5/8" csg, set a plug in the 8-5/8" csg above the 4-1/2" csg cutoff & fill the 8-5/8" csg with cmt to surface for a top plug.
