13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BLA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Attached is a drawing for the placement of the cathodic ground, rectifier and cable for the subject well.

Hardie #2N

Section 28, T29N, R08W, N.M.P.M., San Juan County, NM

Drill ground bed approximately 108' south west of B #212 well head at staked location. Check existing 40-16 rectifier. If it is good relocate it to the staked location. Splice into the UGAC at the old rectifier location and trench it to the new rectifier location. Install cable to new ground bed and to #2N and B #212 wellheads at lengths below.

Hardie #2NCables:

Negative: 306'

Positive: 15'

Total Ditch: 207'
