13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The Mancos payadd in this wellbore produced 1.1 MBO and 15.6 MMcfg before production ceased in March 2012 due to an undetermined downhole mechanical problem. The well has been placed on our workover rig schedule, and we anticipate completing the necessary repairs and returning the well to production by March 15, 2014. A subsequent sundry will be submitted upon completion of field operations.
