13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In reference to the unlined permanent pit (UPP) for the subject well, a closure plan was sent to the NMOCD office in Santa Fe and accepted. The UPP was sampled and those samples analyzed in accordance with the standards set forth in the closure plan. All laboratory analysis returned with levels less than the criteria set forth in the NMAC. The UPP was back-filled with clean material and the area will be reclaimed along with the entire P&A'd gas well location. Upon completion of reclamation a C-144 will be sent to the NMOCD. The FFO BLM has the laboratory analysis on file and the UPP is ready for reclamation.
