13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

In response to a Bradenhead repair, 2,934 yards of soil containing river cobbles was transported from the Sategna #2 to the Congress 16 (36.6875, -107.97164) to "farm" in May of 2002. The following agreed upon plan is to rectify the "land farm" and restore the Congress 16 location.

Farmed material will be removed and used to build up the adjacent road from Way Point (UTM) 36.689833, -107.972831 (northwest edge of pipeline) to 36.685665, -107.969994 (crest of hill southeast), or until material is depleted.

The noxious weed Halogeton (presently in the soil) will be sprayed upon emergence and before it blooms, and will follow a minimum two-year weed management program both on location and distributed area.

After farmed material is removed, location will be reseeded with a native sage brush and grassland seed mix of BLM FFO's selection for the area.
