OTHER: <input type="checkbox"/>	<input checked="" type="checkbox"/> Location is ready for OCD inspection after P&A

- All pits have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan.
- Rat hole and cellar have been filled and leveled. Cathodic protection holes have been properly abandoned. *Note, no cathodic protection holes on location.*
- A steel marker at least 4" in diameter and at least 4' above ground level has been set in concrete. It shows the

OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. ALL INFORMATION HAS BEEN WELDED OR PERMANENTLY STAMPED ON THE MARKER'S SURFACE.

- The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment. See the attached landowner reclamation acceptance letter of the property in its current condition with the well site and lease road unrestored and un-vegetated so the Landowner may have the use thereof. The BP junk, trash, flowlines, and production equipment have been removed.
- Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level. *Note, BP items have been removed. Enterprise's gathering system riser remains on location.*
- If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location.
- All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)
- All other environmental concerns have been addressed as per OCD rules.
- Pipelines and flow lines have been abandoned in accordance with 19.15.35.10 NMAC. All fluids have been removed from non-retrieved flow lines and pipelines. *Note, on pad flowlines were removed. Off location pipeline is the property of Enterprise.*
- If this is a one-well lease or last remaining well on lease: all electrical service poles and lines have been removed from lease and well location, except for utility's distribution infrastructure.

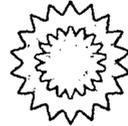

When all work has been completed, return this form to the appropriate District office to schedule an inspection.
Note, please contact Kate Feir @ 970-335-3825 or Courtney Cochran @ 505-326-9457 to schedule an inspection.

RE: Landowner – abandonment acceptance approval
Well Name: State GC BQ #1E
Legals: NENE Section 32- T29N- R13W

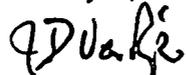

Dear Dwight,

The above mentioned well site, on McGee Land Co. LLC property, was plugged & abandoned by BP America on 02/28/2013. BP and the Landowner acknowledge and agree that BP may leave the property in its current condition with the well site and lease road unrestored and revegetated so that Landowner may have the use thereof in its current state and condition.

BP is required to inform the NMOCD that the location and lease road have been left to the landowner's satisfaction. If the property meets your expectations, would you please sign and return this letter to me?

I (Dwight McGee on behalf of the McGee Land Co. LLC)  personally have inspected the well site and lease road and find the property in good order and to my satisfaction.

Thank you,

Jerry Van Riper
