Re: NMNM-23039 (WC)
3162.3-2 (21110) No. 2 Full Sail A

Dear Mr. Mason:

We plan to rework the referenced well in the Dakota formation in the Spring or Summer of 2006. The NMOCD has demanded we bring the well into compliance but the surface owner requests we do no major rig work until after January 31, 2006. It seems, much of his livelihood is derived from hunting permits he is allowed which he sells to hunters to hunt his land until January 31. We have agreed to honor that time constraint and our only alternative to bring the well into immediate compliance with the NMOCD is to follow the TA procedures. We are currently developing the procedures for the Dakota recompletion and will submit a sundry shortly.

Procedure to recomplete on the Dakota must be filed by 1/31/06

Sincerely,

Mike Dimond
Vice President

Cc: Charlie Perrin, NMOCD
