**NATURE OF RELEASE**

Type of Release: Fire	Volume of Release: Unknown	Volume Recovered:
Source of Release: Fire	Date and Hour of Occurrence: 3/4/14, 11:45 am	Date and Hour of Discovery: 3/4/14, 11:45 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell, New Mexico Oil Conservation Division	
By Whom? Catherine Smith, Huntington Energy, L.L.C.	Date and Hour: 3/4/2014 at 12:19 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. <b>RCVD MAR 11 '14</b>	

If a Watercourse was Impacted, Describe Fully.\*

**OIL CONS. DIV.  
DIST. 3**

Describe Cause of Problem and Remedial Action Taken.\*

Prior to testing the casing per regulations, the hole was being displaced w/2% KCL wtr via the casing and out the tubing to load hole completely with water. When bottoms up was realized at the pit, the mud pump backfired, igniting the gas and setting the approx: 28 bbls oil on fire in the above ground steel pit (approx. 4 bbls burned). After a head count of all personnel on location was complete, the BOP's were checked to insure the pipe rams were SI and the TIW valve was SI on the tubing, securing the well. All fire extinguishers on location were depleted in an effort to put out the fire. Local fire departments were contacted and deployed to location. Three personnel on location required medical attention.

Describe Area Affected and Cleanup Action Taken.\*

The fire was contained to the rig equipment and area under the rig equipment.  
Rid location of damaged equipment from the fire. Ron Lackey, Huntington Energy company representative, will be on location for clean-up.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
