OTHER: ☒ **REMOVE MANCOS FORMATION**

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Burlington Resources wishes to remove the Mancos Formation (Pool 97232) from the subject well.

It is intended to drill and complete the subject well in the Blanco Mesaverde (pool 72319) and the Basin Dakota (pool 71599). The production will be commingled according to Oil Conservation Division Order Number 11363. Allocation and methodology will be provided after the well is completed. Commingling will not reduce the value of the production. The Bureau of Land Management has been notified in writing of this application.

Proposed perforations are: MV - 2786' - 5331' ; DK - 7034' - 7270' These perforations are in TVD.

Interest is common, no notification is necessary.

BR will use some form of the subtraction method to establish an allocation for commingled wells.

Commingle approved by DHC 3606 AZ. The revised C-102 plat is attached.
