13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Per NMF0100(3162) dated April 28, 2014, Hallador requests a FAN for the Horton #4A. Attached is the Landowners concurrence letter. The entire road into the location is currently in use to service the Horton #11.

14. I hereby certify that the foregoing is true and correct

Re: Horton 4A Plugged Well
Located 990' From the North Line and
1,090' From the West Line of
Section 27, Township 31 North, Range 12 West
San Juan County, New Mexico

Dear Mr. and Mrs. Eppard:

The Horton 4A well was drilled in 1978 by Hallador Petroleum's predecessor, Kimbark Operating Company, and was plugged and abandoned in 1995. County records indicate you are the current surface owners. A plat showing surface ownership as well as locations of wells and roads in the area is attached for your reference. The Farmington Field Office, Bureau of Land Management has asked Hallador to file a formal notice to reflect that the well location and access road have been reclaimed along with a letter showing that the landowners, in this case you, concur.

Our inspection of the Horton 4A location indicates the vegetation, appearance, etc. of the former well site is consistent with the surrounding area and a final notice of abandonment can be filed now. However, the access road was originally a dual-purpose road serving both the Horton 4A and the Horton 11. The Horton 11 is still producing; thus the road cannot be reclaimed at this time.

Please indicate your concurrence with the above evaluation by signing the bottom portion of this letter and returning one copy to my attention. A post-paid envelope is enclosed for your convenience.

Mr. and Mrs. Charles Eppard
