13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

McElvain Energy requests permission to conduct and chart an MIT on the Ora #8 well in order to continue the temporarily abandoned status of this well for the following reasons:

- 1) This Federal lease continues to be held by production from 5 active, commercially producing wells on the lease (the Ora #1, 2, 3, 4, 5 & 7).
- 2) Access onto and across this lease is difficult to obtain and the abandonment and loss of any existing infrastructure and access may be difficult to re-acquire. As the horizontal Mancos oil play continues to evolve and move towards the Ora #8, the prospects for renewed activity in the existing wellbore (re-stimulation, re-entry, micro-seismic monitoring, etc.), on the existing wellpad and/or with the existing infrastructure improves.
- 3) McElvain will perform the requisite MIT and continue to monitor the security and integrity of the well, access route and infrastructure throughout the TA period.
- 4) The proposed MIT procedure involves pressure testing the casing above the existing CIBP at 7050', charting and reporting the results. The test pressure will be at or above 500 psi and the proposed MIT would be performed prior to October 31, 2014.
