NATURE OF RELEASE

Type of Release Produced Fluids	Volume of Release Unknown	Volume Recovered Unknown
Source of Release Below Grade Tank	Date and Hour of Occurrence	Date and Hour of Discovery
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	Unknown	4/9/2010
By Whom?	If YES, To Whom?	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Date and Hour	
If a Watercourse was Impacted, Describe Fully.*	If YES, Volume Impacting the Watercourse.	

OIL CONS. DIV DIST. 3

AUG 28 2015

Describe Cause of Problem and Remedial Action Taken.*
Below grade tank closure activities

Describe Area Affected and Cleanup Action Taken.*

The below grade tank sample results were below the regulatory limits of 0.2 ppm benzene, 50 ppm BTEX, and 100 ppm TPH; however the sample returned results above the regulatory limit of 250 ppm total chlorides, confirming a release. Chloride levels were 350 ppm. Analytical results for TPH, BTEX, and Chlorides were below the regulatory standards in the NMOCD Guidelines for Remediation of Leaks, Spills and Releases; therefore no further action is required. The final lab report is attached for review.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
