13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. requests administrative approval for surface commingling of natural gas produced from the list of attached wells in the Pipkin CDP. These wells are located in Townships 27N, 28N and Ranges 10W and 11W. The attached table shows lease numbers, API numbers, producing pools, and other pertinent information. XTO plans to produce gas through a central compressor, thus lowering operating expenses & extending the economic life of the wells and thereby increasing their ultimate recoveries. Attached is supporting documentation for our proposal. A sundry has been filed with the NMOCD of our intent to surface commingle these wells.
