JUSTIFICATION OF ALLOCATION: It is recommended that the allocation for the Huerfano 59 be adjusted based on an analysis of offset performance. The direct offset Fruitland Coal and Pictured Cliffs producers were averaged to determine a reasonable current allocation. Producers for the Fruitland Coal are the McConnell 502, McConnell 504, and Huerfano 508. These wells are averaging 208 MCFD. The direct offset producers for the Pictured Cliffs are the Huerfano Unit 209, Huerfano Unit 147, McConnell 4, McConnell 7, McConnell 8, and Huerfano Unit 58. These wells are currently averaging 63 MCFD. Only active producers were used for these calculations. The Huerfano Unit 46 was not used as it is a commingled well.
