JUSTIFICATION OF ALLOCATION: It is recommended that the allocation for the McAdams 500 be adjusted based on an analysis of offset performance. The direct offset Fruitland Coal and Pictured Cliffs producers were averaged to determine a reasonable current allocation. Producers for the Fruitland Coal are the Johnson 2, Rowley D 1, and Rowley C 2. These wells are averaging 186 MCFD. The direct offset producers for the Pictured Cliffs are the Rowley D 2, Rowley C 1, and Rowley B 2. These wells are currently averaging 88 MCFD. Only active producers were used for these calculations. The Gordon 5 was not used as it is a commingled well.
