JUSTIFICATION OF ALLOCATION: It is recommended that the allocation for the Whitley A 100 be adjusted based on an analysis of offset performance. The direct offset Fruitland Coal and Pictured Cliffs producers were averaged to determine a reasonable current allocation. Producers for the Fruitland Coal are the Mudge A 181, Schwerdtfeger 17 1, Schwerdtfeger 1R, and Yockey 5. These wells are averaging 169 MCFD. The direct offset producers for the Pictured Cliffs are the Schwerdtfeger 11, Yockey 3, Yockey 2, and Mudge A 11. These wells are currently averaging 25 MCFD. Only active producers were used for these calculations.
