13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On December 14, 2005, Operator, Lance Oil & Gas Company, Inc., set a bridge plug at the top of the West Kutz Pictured Cliffs Ext. formation, at 1130' KB, thereby temporarily plugging back the West Kutz Pictured Cliffs Ext. formation. Completion operations then commenced on the Basal Fruitland Coal (S-8) formation. The Basal Fruitland Coal (S-8) was perforated and frac'd from 1,119' - 1,126' KB with 18,304 gals Delta 140 with SandWedge NT containing 48,250 lbs of 16 / 30 Brady sand.

Operator wishes to produce the Basal Fruitland Coal (S-8) zone only of this well for a period of time in order to establish a production rate in the Basal Fruitland Coal (S-8) zone.

Operator will request to downhole a downhole commingling order prior to pulling the Bridge Plug set at 1,130' KB.

14. I hereby certify that the foregoing is true and correct  
Name (Printed/Typed)

Thomas M. Erwin, P. E.

Title Senior Production Engineer
