13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

This sundry is a followup to the NOI dated 10/19/15 for notification of venting. It was necessary to vent this well due to stimulation operations on Energen's Chacon Jicarilla #602H. Energen vented the subject well intermittently from 10/16/15 to 10/20/15 and 10/22/15 to 10/26/15 (10 days in total) to relieve the wellhead pressure. An estimated volume of 197.6 mcf was vented. Venting operations ceased on 10/26/15 once the wellhead pressure returned to the normal operating pressure of approximately 200 psi and the well was returned to production on 10/29/15.
