Was a Watercourse Reached?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	2 BBLs		

If a Watercourse was Impacted, Describe Fully.*

During the course of release a small portion reached a minor drainage

Describe Cause of Problem and Remedial Action Taken.*

pipeline failure (undug ground). Impacted soils were immediately excavated and removed from watercourse

Describe Area Affected and Cleanup Action Taken.*

See above. Continued remediation is ongoing weather dependent.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
