OTHER: <input type="checkbox"/>		<input checked="" type="checkbox"/> Location is ready for OCD inspection after P&A	

- All pits have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan.
- Rat hole and cellar have been filled and leveled. Cathodic protection holes have been properly abandoned.
- A steel marker at least 4" in diameter and at least 4' above ground level has been set in concrete. It shows the **OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. All information has been welded or permanently stamped on the marker's surface.**
- The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment.
- Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level.
- If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location..
- All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)
- All other environmental concerns have been addressed as per OCD rules.
- Pipelines and flow lines have been abandoned in accordance with 19.15.35.10 NMAC. All fluids have been removed from non-retrieved flow lines and pipelines.
- If this is a one-well lease or last remaining well on lease: all electrical service poles and lines have been removed from lease and well location, except for utility's distribution infrastructure.

**Landowner has assumed possession of the well pad after equipment stripping and installed cattle corals and other equipment for agricultural operations onto the well pad. Please see attached concurrence letter from landowner.

When all work has been completed, return this form to the appropriate District office to schedule an inspection.

RE: Landowner reclamation concurrence
Well Name: Florance #30A
API: 30 045 22144
Well location: SWNW Section 1, T29N-R8W NMPM
San Juan County, New Mexico

Dear Mr. Munoz,

The above mentioned well located on your property was plugged & abandoned by BP America Production Company ("BP") on November 15, 2004. With surface owner ("Landowner") approval, BP is allowed to leave the property in its current state and condition with the well site and lease road unrestored and unrevegetated.

BP is required to inform the NMOCD that the well site and lease road have been left to the Landowner's satisfaction. Please sign, date and return one (1) copy of this letter to me at the address shown above confirming that you accept the property in its current state and condition.

Should you have any questions feel free to contact me at 505-326-9214.

Sincerely,

Charles T. Davis Jr.
Land - Surface Negotiator

I, Edward Munoz, have personally inspected the well site and lease road and find the property to be in good order and to my satisfaction. I agree that BP may leave the property in its current state and condition for my future use.

Edward L. Munoz
