13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The below work was completed and ConocoPhillips has performed a post project onsite meeting with the BLM.

On the North side of location the silt will be removed that has been deposited and the material will be used to rebuild the diversion on the North side of location. The silt deposited on the East side of the diversion ditch will be removed and the low section of the road will be built up. No repair work will be conducted outside of the previously permitted area.
