After a NMOCD well file review it was discovered that the subject well was incorrectly permitted in Blanco PC (72359). The correct pool is the Aztec PC (71280).

It is intended to complete the subject well in the Basin Fruitland Coal (pool 71629) and the Aztec PC (pool 71280). The production will be commingled according to Oil Conservation Division Order Number 11363. Allocation and methodology will be provided after the well is completed. Commingling will not reduce the value of the production.
