Form C-144

June 1, 2004

For drilling and production facilities, submit to appropriate NMOCD District Office.  
For downstream facilities, submit to Santa Fe office

**Pit or Below-Grade Tank Registration or Closure**

Is pit or below-grade tank covered by a "general plan"? Yes ☒ No ☐

WFS

Type of action: Registration of a pit or below-grade tank ☐

Closure of a pit or below-grade tank ☒

|                                                                                                                                                                                                                                                                                                                                                                                                                            |  |                                                                                                                                                                              |                               |                                                                             |

**If this is a pit closure:** (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if you are burying in place) onsite ☒ offsite ☐ If offsite, name of facility \_\_\_\_\_. (3) Attach a general description of remedial action taken including remediation start date and end date. (4) Groundwater encountered: No ☒ Yes ☐ If yes, show depth below ground surface \_\_\_\_\_ ft. and attach sample results. (5) Attach soil sample results and a diagram of sample locations and excavations.

| Date: <u>1/31/06</u>                                                                                                                                                                                                                                                                                                                                                                                       | Signature: <u>Mark Harvey</u> FOR WFS     |
| Printed Name/Title <u>Mark Harvey for Williams Field Services</u>                                                                                                                                                                                                                                                                                                                                          |                                           |
| Your certification and NMOCD approval of this application/closure does not relieve the operator of liability should the contents of the pit or tank contaminate ground water or otherwise endanger public health or the environment. Nor does it relieve the operator of its responsibility for compliance with any other federal, state, or local laws and/or regulations.                                |                                           |
| Approval:<br>Printed Name/Title <u>DEPUTY OIL &amp; GAS INSPECTOR, DIST. 03</u>                                                                                                                                                                                                                                                                                                                            | Signature: <u>[Signature]</u> FEB 02 2006 |

## ADDENDUM TO OCD FORM C-144

**Operator:** CONOCOPHILLIPS COMPANY

**API** 30-045-23686

**Well Name:** SAN JUAN 32 7 UNIT #007A

**Meter:** 81787

**Facility Diagram:**

**Sampling Diagram:**

**Pit Dimensions**

Length 12 Ft.

Width 12 Ft.

Depth 3.5 Ft.

**Location of Pit Center**

Latitude 36 59.024 N

Longitude 07 35.819 W

(NAD 1927)

**Pit ID**

817871

**Pit Type**

Unknown

**Date Closure Started:** 7/6/05

**Date Closure Completed:** 7/6/05

**Closure Method:** Pushed In

**Bedrock Encountered ?** ☐

**Cubic Yards Excavated:**

**Vertical Extent of Equipment Reached ?** ☐

**Description Of Closure Action:**

The pit was assessed and sampled in accordance with NMOCD guidelines. Based on assessment findings, the pit was backfilled.

**Pit Closure Sampling:**

| Sample ID | Sample Date | Head Space | BTEX Total (mg/kg) | Benzene (mg/kg) | TPH DRO (mg/kg) | Purpose | Location | Depth |
|-----------|-------------|------------|--------------------|-----------------|-----------------|---------|----------|-------|
|           |             |            |                    |                 |                 |         |          |       |
