13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The McCulley LS 008 well was Plugged and abandoned on 12/16/2009. BP requested a FAN on this location on March 11, 2016 and scheduled a site visit with BLM Personnel Mike Bullock. On April 6, 2016 a site visit by Sabre Beebe, BP Compliance Specialist and Mike Bullock, BLM Natural Resource Specialist. The conclusion of this visit is that the McCulley LS 008 is co-located with two active BP wells the McCulley LS 2A (API30-045-29305) and McCulley LS 4S (API 30-045-32426). The plugged and abandoned location McCulley LS 008 equipment has been removed from location. It was determined during the on site visit by BLM and BP that no reclamation work can be performed due to the active wells on location. Therefore, the final reclamation work will be the responsibility of the active wells at such time that they are plugged and abandoned. This sundry is a request for approval of Final Abandonment of the McCulley LS 008 well. Please contact Sabre Beebe, BP Compliance Specialist at sabre.beebe@bp.com or 970-375-7530 with questions or concerns.

Order/INC No.

The Privacy Act of 1974 and the regulations in 43 CFR 2.48(d) require that you be furnished the following information.

Authority: 30 U.S.C. 181 et seq.; 43 CFR 3160; Onshore Oil and Gas Order No. 1.

Principal purpose: The BLM uses this information to document and track compliance with the terms of a Federal permit and to contact permittees and affected parties.

Routine uses: (1) Document and track compliance with permit conditions. (2) Gather contact information for permittees and parties affected by the permit, for example, split estate surface owners. (3) Track monitoring data. (4) Information from the record and/or the record will be transferred to appropriate Federal, State, or local agencies when relevant to civil, criminal, or regulatory investigations or prosecutions.

Effect of not providing information: Disclosure of the information is voluntary; however, failure to provide the requested information may impede individual participation.
