13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The Heaton LS 031 well API 30-045-21100 was plugged and abandoned on 5/18/2010. As of 09/19/2016 BP has completed full reclamation of the location to include equipment removal, re-contouring, seeding and temporary fencing.

On December 1, 2016 Sabre Beebe, BP and Randy McKee, BLM performed an onsite visit of the location and Mr. McKee with BLM approved all work performed on location and agreed that the location is ready for monitoring for vegetation obtainment for Final Abandonment. Should you have any questions or concerns regarding this matter please contact Sabre Beebe, BP Compliance Specialist at sabre.beebe@bp.com or 970-779-9398.

OIL CONS. DIV DIST. 3
