NATURE OF RELEASE

Type of Release: natural gas	Volume of Release: 445 mcf	Volume Recovered: none
Source of Release: Scrubber dump	Date and Hour of Occurrence: 2/11/17; 9:00AM	Date and Hour of Discovery: 2/17/17; 5:30PM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

OIL CONS. DIV DIST. 3

MAR 02 2017

Describe Cause of Problem and Remedial Action Taken.* Gas release due to manual valve left open on compressor scrubber dump line. No environmental impacts as gas was vented directly to atmosphere.

Describe Area Affected and Cleanup Action Taken.* Broken ball valve vented directly atmosphere. No action necessary outside of repairing ball valve and piping. Root cause determined that the ball valve was human error. Training will be provided.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
