	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This well was plugged by Texaco Exploration and Production 7/14/1993. Reclamation was to have been done. There is no record of such activities being completed.

In the ensuing years the well was acquired by Chevron through various sales. The well site was to be inspected for FAN status. However, the access is blocked by two locked gates. Please see attached photos.

As the plug and abandon was performed 13 years ago, revegetation has likely been established. Chevron respectfully requests FAN status to close out this old, inactive lease.

DENIED GS

14. I hereby certify that the foregoing is true and correct. Name (Printed/Typed)
April E Pohl
