	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

See attached description of work and aerial depiction of work to be performed.

OIL CONS. DIV DIST. 3

OCT 10 2017

14. I hereby certify that the foregoing is true and correct. Name (Printed/Typed)
Ben Mitchell Title **Landman**

Signature *Ben Mitchell* Date **8/30/2017**

THIS SPACE FOR FEDERAL OR STATE OFFICE USE

Approved by *Sarah Wilson* Title *Sup NRS* Date *10/3/17*

Office *FFO*

Conditions of approval, if any, are attached. Approval of this notice does not warrant or certify that the applicant holds legal or equitable title to those rights in the subject lease which would entitle the applicant to conduct operations thereon.

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212, make it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

San Juan 32-7 #301 SWD

Scope of Work: Clean out ditches as shown on map attached. Proposed work will be within the boundaries +/- of the yellow lines depicted on the attached. Add culvert at location as depicted in red. Portions of the ditch will be new construction, but located within existing disturbance.

Need/Purpose: Rainwater diversion from ditch cleanout as depicted on map will prevent flow of water onto location.

Review: Archeology report from BLM well file for the subject well provides no areas of concern for the cleanout of ditches. Onsite with BLM representatives Chris Wenman and Michael Porter at location 8/22/2017 was held and no concern about ditch maintenance was evident.

Maintenance: To further accommodate water flow henceforth ditches will be cleaned at such time sediment buildup becomes sufficient to warrant cleaning. The cleaning will be done with earthmoving equipment such as a backhoe or blade.
