13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On August 28, 2017 a slight increase in pressure (30 psi) was noticed at the Federal D #5 causing the pumping unit to go down. Suspect that pressure was a result of the hydraulic stimulation that was being performed on the Nageezi Unit #406H by Encana. Continued producing the well utilizing propane to run the pumping unit.

ACCEPTED FOR FILING

OCT 2 2017

William Tambekou
